

LED BLINK IN ARDUINO

CONNECTION: LED PIN L1 TO PIN 13

CODE :

```
int LEDpin = 13;
int delayT = 1000;
void setup() {
    // put your setup code here, to run once:
    pinMode(LEDpin, OUTPUT);
}
void loop() {
    // put your main code here, to run repeatedly:
    digitalWrite(LEDpin, HIGH);
    delay(delayT);
    digitalWrite(LEDpin, LOW);
    delay(delayT);
}
```
